

Growth – personal development with love, acceptance and respect for your two streams of consciousness, your self and your Self.

Your next step:

To improve upon your current communication with your Self. To be more observant of your outcomes, your feedback within your reality. To improve your ability to consciously create what you wish for.

To master your thinking, your thoughts, and your emotional tone.

What else do you want to 'work' on? If you had plenty of time each day what would you spend your time doing? If you had plentiful shelter, clothing, food and friendship, what would you spend your time doing, being and having?

In other words: **What do you REALLY want to experience now?**
